

LeapYears[®]

Cellular Health System

- More Vitality
- More Engagement
- More Life

Healthy aging in dogs is the same as in people.

It includes having a clear mind, ease of movement, and being interested in things.

LeapYears®

THIS WHEEL CAN BE USED AS AN AID IN CLIENT CONVERSATIONS ABOUT HEALTHY AGING

START IN THE CENTER OF THE WHEEL

to get an understanding of any medical issues and current nutritional status.

Scan the QR code below for a resource you can give a client about switching their dog to a senior diet.

FOUR FACTORS IMPACTING HEALTHY AGING

(middle ring of wheel)

- Staying engaged by having an enriched environment
- Maintaining strength through daily movement
- Getting enough, high-quality sleep
- Exercise

ALERT CLIENT TO THE SIGNS OF AGING

This may be subtle at first (outer ring of wheel)

- Becoming less attentive. Is my dog ignoring me?
- Frailty – can see bony prominence on the top of the head or down the spine
- Restlessness at night and sleepiness in the daytime
- General slowing down. Does my dog not want to walk as far as we used to?

CLIENT SUPPORT

Let your clients know your team is an expert resource to support their aging dogs.

Scan the QR code for resources that you and your team can use to get the conversation started with clients about their dog's aging plan.
